## laptop ergonomics

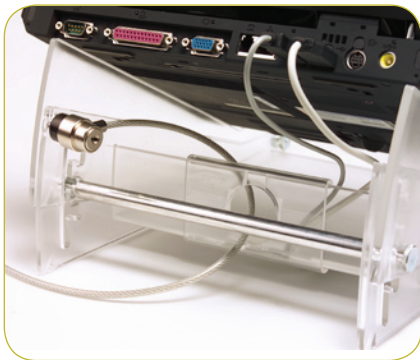

### ergo-top 320 RECYCLED PMMA laptop stand

Ideal for 'hot desking' and home office solutions, the Ergo-Top 320 improves body posture and comfort level when using your laptop computer.

It has an integral, anti-reflective document holder (patented) and five height settings, which comply with legal workplace requirements.

A smart and elegant design, which was named as the winner of the Good Industrial Design Award as well as FIRA Ergonomics Excellence Award.

#### key benefits

- > Ergonomic: Ideal for 'hot desking' and home office solutions, the Ergo-top 320 improves body posture and comfort levels when working on a laptop computer and is compliant with legal workplace requirements.
- > 5 different height settings: height range (at the back): between 157 and 220 mm.
- > Strong & robust: Made from frosted, anti-reflex and recyclable PMMA, with rubber anti-slip feet and aluminum adjustable slide rod.
- > Easy laptop set-up: Set-up and be ready to work in seconds.
- > Money saver: no external monitor needed and saves desk space.
- > Practical: Includes an integral, anti-reflective document holder and fixing for most industry standard security cables.
- > Award Winning Design: FIRA Ergonomics Excellence Award and Good Industrial Design Award ..
